Mexico: Up & Running!

On Monday March 7th, both of our Super Kitchens in Mexico were running in full operation since the beginning of COVID-19 shut downs. On Monday alone, 50,000 hot meals were delivered to various schools in greater Tijuana and Mexicali.

The first day, children in schools happily started the day with ham, potatoes, scrambled eggs, two tortillas each, beans, and a fresh orange.

We are *really* happy to see all our staff back at work and being able to feed so many kids once again.

Potjiekos World Record

Victory! Our OtBAfrica team successfully broke the world record on number of potjiekos made in a single day. Led by Chef and Director Mark, 10,000 hot meals were served. Each successful pot also sponsored 10,000 servings of VitaKidz, equalling over ONE MILLION meals in one day. Congratulations OtBAfrica!

Deb & Jae's Journey

Our founders recently travelled to South Africa to connect with the Super Kitchen and other partners in the area. Did you see them helping out during our coverage of the Potjiekos record event?

And finally... Let's Talk About Lesotho!

Lesotho is a small kingdom nation encircled by South Africa.

Recently, VitaKidz has become known as "Miracle Porridge" among the Lesotho recipients and communities. In reaction, Outside the Bowl has teamed up with Pastor Johan to create a warehouse-based **IMDC (Instant Meal Distribution Center)** located on the South African border for distribution into Lesotho.

April will be dedicated to learning, supporting, and fundraising for the new Lesotho effort.

Stay tuned!
