

Children's Activity:

Fiesta Flowers

Fiesta Flowers are a fun way to add some color to your Super Kitchen Supper.

materials:

- tissue paper
- scissors
- pipe cleaners

instructions:

- cut tissue paper to your preferred size. 12x12" is a good size to start.
- arrange the layers of your flower. the color on top will be the center.
- fold the tissue paper like an accordion.
- twist a pipe cleaner around the center of the folded tissue paper. the long end will make the flower's stem.
- cut the edge of the tissue paper to make petal shapes ... rounded, pointed, jagged ... it's up to you!
- unfold your paper and gently pull each layer of tissue toward the center. Be careful as the paper easily rips.
